Welcome!

Thank you for signing up to be a Vision Warrior. Now it’s time to get down and dirty in this adventure race that requires endurance, teamwork, and grit. Before you do Tough Mudder, you will have plenty of opportunities to share your story, invite friends and family to join you, and raise awareness for Foundation Fighting Blindness.

Everyone’s reason for getting muddy is different. On event day, we will come together with one common goal: raise funds for preventions, treatments, and cures for millions of people around the world who are affected by blinding diseases.

Three quick ways to get started:

Set a Fundraising Goal of $500 or Higher. Create a goal that is bit of a stretch for you. $500 is the required fundraising minimum but go for $850. Your social community can have fun helping you and cheering you on!

Think About How You Want to Fundraise. Reaching friends and family through email and text messages tend to have the most consistent results. Social media is a wonderful tool for sharing your story. Also, think of creative, fun ways you can fundraise in your community.

Make a List. Create a list of friends and family and remember to include people like local community leaders, churches, gyms, schools, and places where you do business. Remember, people can’t say ‘yes’ if you don’t ask.

Keep focused on your reason for doing this adventure race. Every dollar you raise helps support critical, sight-saving research which will give hope to the more than 10 million Americans who suffer from blinding diseases. As you get ready to get muddy as a Vision Warrior and do a Tough Mudder adventure race, we want you to know we’re here for you!

How To Use This Toolkit

Best Practices
This toolkit provides support and fundraising guidance for our Vision Warriors doing a Tough Mudder. It includes a series of emails, texts, social media content, and fundraising ideas.

- **Use our templates.** Copy and paste our pre-written templates OR use them as a guide.
- **Personalize each message.** Consider using photos, videos, and graphics to tell your story. Videos and pictures appear in more people’s newsfeeds on Facebook and our great for sharing on Instagram and TikTok.
- **Ask individually.** Personalized emails and texts mean a lot! If you text and email different people once a day for a week, the results will amaze you.
- **Send emails to your entire list throughout your journey.** Even if they have already donated, your supporters love to hear updates.
- **Follow up.** Not everyone responds the first time.
- **Keep moving if you get a ‘no.’** There are more people out there ready to participate. It’s not personal.
- **Stay inspired.** What you’re doing is special. Your goal is within reach. Remember your story.

Subject: BIG NEWS – I joined Vision Warriors and am doing a Tough Mudder Adventure Race!

Hey Friends,

Big News! This February, I am getting down and dirty in an adventure race called Tough Mudder to raise money and awareness for the Foundation Fighting Blindness. I’m taking on this challenge to support those affected by blinding diseases. I’m excited to fundraise for groundbreaking research while breaking a sweat.

On Sunday, February 19, 2022, I will get muddy for one reason: to make an impact to driving research finding preventions, treatments, and cures for the 10 million people in America affected by blinding diseases.

I would love for you to join me and my team [insert team sign-up page] and let’s do this together. Not ready? You can cheer me on and donate to help fund important research and community programs. Either way, I appreciate your support. This mission means a lot to me because [INSERT PERSONAL CONNECTION OR PASSION]

My goal is to raise $850 [IF YOU WANT TO RAISE MORE PLEASE MAKE YOUR GOAL HIGHER]. Every dollar I raise will go toward the Foundation Fighting Blindness. All you have to do is visit my fundraising page here [INSERT LINK] to make a donation today.

Follow along with me as I work toward my fundraising goal? I’ll send out emails like this as I go (and post on Facebook and Instagram).

Thank you in advance for your help. It’s great to know that I have a strong support system cheering me on.

All the best!

Subject: Will you support me as a Vision Warrior?

Hello!

Big changes are caused by small actions that add up. I have already begun to see this change build as a Vision Warrior for the Foundation Fighting Blindness. So far, my supporters have helped raise $XXX which is XX% of my goal. I’m excited to see my friends and family help me support the Foundation’s mission to drive research finding treatments and cures for blinding diseases.

Did you know your donation helps support resources that goes toward research and disease information and resources.

Did you know that most rare retinal diseases are inherited and usually caused by one or more mutations in a single gene? Genetic testing and research are big initiatives for the Foundation to help manage retinal diseases.

If you would like to help me support these research opportunities and community resource programs, visit my fundraising page at [INSERT LINK HERE] and donate today.

Follow me on social media for more updates [INSERT SOCIAL MEDIA LINKS HERE].

Thank You!

Social: How the Foundation Fighting Blindness Helps

Many of you have asked how the Foundation Fighting Blindness supports the community affected by retinal diseases. Here are some facts and information to share with your community:

- More than 10 million Americans and millions more throughout the world are impacted by blinding retinal diseases – including age-related macular degeneration and inherited retinal diseases (IRDs) like retinitis pigmentosa and Usher syndrome, Stargardt disease and more..
- Inherited retinal diseases are a group of diseases that can cause vision loss and blindness. People living with IRDs experience a gradual loss of vision, eventually leading to complete blindness.
- Others may be born with or experience vision loss in infancy or early childhood.
- Each IRD is caused by at least one gene that is not working properly. There are 270 genes identified that are linked to inherited retinal diseases. Gene therapy is considered the most promising treatment method for correcting these faulty genes.
- During its now 50-year history, the Foundation has raised over $891 million in support of its effort to reverse blindness and restore vision. The Foundation is the world’s leading private source for IRD research funding.
- The Foundation is funding translational research and clinical trials of gene therapy that have restored vision in patients who were virtually blind from a childhood form of retinitis pigmentosa. The Foundation also funds research on potential drug therapies that slow or prevent the loss of retinal cells, thereby saving vision.
- The Foundation has volunteer-led Chapters across the US. These dedicated volunteers raise funds, increase public awareness, and provide support to families affected by retinal diseases in their communities.
